

Balloon Aloft

A lesson on paragraph writing by 5A

Hey Kids! If you want to come to ride in a tethered balloon come to St. Charles School! We have a balloon that comes to our school in October. You can enter a drawing for a ride in a balloon if you want to.

Mr. Evans is the coordinator of our Annual Balloon Aloft. In his balloon you can fit four people including the pilot. Our school has been doing this for at least six years. This is a fun opportunity for our school!

The Balloon Aloft is on a Friday every year. This year it happens on September 30th because the Balloon Fiesta begins Saturday, October 1st. Balloon Aloft starts at 7:00 in the back yard.

The reason St. Charles does the Balloon Aloft is so the children can have a chance to ride in a balloon. Also, it is a science lesson

because you can learn why the balloon rises. They go up because hot air rises and the mornings are cold in October. Balloon Aloft can be fun and educational.

So, if you want to see the Tethered Balloon Aloft, be sure to get up early Friday, September 30th. That's next week!
