

Gina Evans

Professional Bio

She initially went to school to become a travel agent and worked at Blue Sky Tours booking Hawaiian packages. She then went to work for a lawyer's office as a receptionist. The bookkeeper gave her notice and asked if Gina could have the job where she worked for the next 5 years. She then went to work for a tile company where she worked at for 10 years. She gave her notice to stay home with Collin and be more available in Alan's class at school. One day on her way home from work, she got a phone call from Laraun asking her how she would like to come to work at St. Charles. She told her that she really was not looking for another job and that if it worked out the hours would have to fit in with the boys' school schedule. That was in 2002 and she is still here.

Educational Philosophy

"Think enthusiastically about everything; but especially about your job. If you do, you'll put a touch of glory in your life. If you love your job with enthusiasm, you'll shake it to pieces. You'll love it into greatness." Norman Vincent Peale

"Success in business requires training and discipline and hard work. But if you're not frightened by these things, the opportunities are just as great today as they ever were." David Rockefeller

"Let us think of education as the means of developing our greatest abilities, because in each of us there is a private hope and dream which, fulfilled, can be translated into benefit for everyone and greater strength for our nation." John F. Kennedy
