

Lisa Hastings

Professional Bio

Ms. Hastings is very excited to be a part of the St. Charles staff and to be able to be an educator for such a fantastic school. It is nice to be at a school where we can educate our faith, and work in a great, friendly environment. Ms. Hastings graduated from New Mexico Highlands University with a Bachelor of Arts in Elementary Education. Ms. Hastings has been in the education field for the past seven years working in Pre K, Kindergarten and First Grade.

Educational Philosophy

As educators, we are to fulfill the needs of each child and enlighten them so they can brighten their future. We will fill them with the knowledge they need to get them through life experiences and let them succeed in all different ways, help give them book smarts as well as practice common sense. We, the educators, should give each child tools to learn and teach him/her how to use these tools. We need to bring life experiences into their learning, making it hands on and enjoyable for them. Learning should not be stressful for a child.

We should educate the children in different ways such as, hands-on for the children that learn visually, and do readings from books for the ones who are not visual learners. By doing this we will be strengthening each child by offering different learning techniques so their learning can occur through varying avenues. As professionals we must aspire to prepare these children for anything that may come their way. This is such an awesome responsibility and I want to meet that challenge.

"I never worked a day in my life. It was all fun." - Thomas Edison
