

Deana Hernandez

Professional Bio

Mrs. Hernandez works at St. Charles Borromeo School because she loves this place! She enjoys the FAMILY atmosphere, teaching religion, and all the fun that we have. She has been teaching since 1997. She has taught 1st grade for seven years, 5th grade for four years, and now middle school math. She has worked at a Montessori School, as a video clerk, and later a cosmetician, but education has always been her joy. Mrs. Hernandez graduated from The College of Santa Fe with a BA in Education and from UNM with a MA in Education. Every year she tries to take at least 2 classes that will help her become an improved educator. She is currently working on her Advanced Catechist Certification with the Archdiocese. She is a member of the National Council of Teachers of Mathematics, The National Catholic Educational Association, Association for Supervision and Curriculum Development, and the International Reading Association. Her hopes for the future are to begin working on her PhD and perhaps teach at the college level, but for right now she is enjoying tremendously working at St. Charles Borromeo School.

Educational Philosophy

Mrs. Hernandez's philosophy of teaching is simple; she believes that education should be an enjoyable avenue in which children of all ages develop, emotionally, spiritually, and intellectually. Learning should be challenging, fun, and appreciated by all whom are involved in the process. Her expectation is that as these values are practiced, her students will be able to reach their complete potential.
