Educational Philosophy

Mr. Meyer plans his lessons around students being involved. He believes that if children are able to hold and touch and discuss, they are more willing to be engaged in the lesson. In Mr. Meyers' classroom, he feels that the success or failure of a student falls on his shoulders thus he is willing to spend as many hours and change as many plans as he needs so that each child leaves his classroom with nothing but success.

Mr. Meyer has devoted his life to developing young people, and believes there is nothing better than helping the leaders of tomorrow by positively influencing them today. "I will never forget that each of my students is a shining star and I promise to do my best to keep my little stars shining brightly!"

Chinese Proverb
