

Reading

The students are reading everyday and their Lexile levels improved significantly over the summer. We do have quite a few books in the library however we do not have every book there are quizzes on. We encourage the students to go their local library to check out books.

Our program is a little different this year. They still have to take nine quizzes in the year and there is a deadline for each quiz. The difference is they are able to take the quiz up to three times before the deadline to improve their score. Remember they cannot take a quiz on a book they have taken a quiz on in the years past. Keep on reading its good for the brain!
